

0240 - VPA Anchor

Description

The VPA ventilation pigtail anchor is specifically designed for fixing temporary air supplies in tunnel linings. They can also be used for temporary lighting and other more permanent fixtures that need an eyelet finish.

Advantages

- Shallow embedment
- Knurled plug for improved grip
- High retaining power
- Corrosion resistant

Typical applications

- Fixing temporary air supplies in tunnel linings.
- Temporary lighting

VPA Anchor

| VJT Code | Description | Drill-Ø (mm) | Internal Thread (mm) | Eye Hole Diameter (mm) | Min. Drill Depth (mm) | Box Qty |

| 02400020 | VPA Anchor Pepsheal Brass M6 x 25 | 8 | M6 | 17 | 29 | 100 |
| 02400040 | VPA Anchor Pigtail Zinc & Yellow M6 x 35 Thread | 8 | M6 | 17 | 29 | 100 |

0250 - Scaffold Fixings

Description

The standard Scaffold Ring Bolt has a 54mm eye diameter, which has been designed to accept standard size scaffolding tubes and has a Hot Dipped Galvanised finish. It is most commonly used with the M16 Drop In anchor for concrete for the attachment of free standing scaffold to the structure of the building.

Scaffold Ring Bolt For Concrete

| VJT Code | Description | Thread Size | Thread Length (mm) | Drill Diameter (mm) | Eye-Ø | Overall Length (mm) | Box Qty |
|----------|-------------------------|-------------|--------------------|---------------------|-------|---------------------|---------|
| 02600010 | Scaffold Ring Bolt M16 | M16 | 25 | - | 54 | 210 | 1 |
| 02100050 | M16 Drop In Anchor BZP | M16 | 22.0 | 20 | - | 65.0 | 25.0 |
| 02300050 | Drop In Anchor Tool M16 | - | - | - | - | - | - |

The Scaffold Ring Bolt should not be used for shear loads or as a lifting eye.

Scaffold Ring Bolt For Concrete and Masonry

| VJT Code | Description | Thread Size | Thread Length (mm) | Drill Diameter (mm) | Eye-Ø | Overall Length (mm) | Box Qty |
|----------|---|-------------|--------------------|---------------------|-------|---------------------|---------|
| 02600010 | Scaffold Ring Bolt M16 | M16 | 25 | - | 54 | 210 | 1 |
| 02800260 | Toge screwbolt stud BZP 10 x 120 M12 x 25 | M12 | 25 | 10 | - | 120 | 50 |
| 17500080 | Connector 4.6 BZP M12 - M16 | M12 & M16 | - | - | - | - | 10 |

*testing recommended in masonry.

Scaffold Ring Bolt For Timber and Steel

| VJT Code | Description | Thread Size | Thread Length (mm) | Drill Diameter (mm) | Eye-Ø | Overall Length (mm) | Box Qty |
|----------|--|-------------|--------------------|---------------------|-------|---------------------|---------|
| 02600010 | Scaffold Ring Bolt M16 | M16 | 25 | - | 54 | 210 | 1 |
| 02700270 | Scaffold plate connector M16 for wood 12.5mm holes | M16 | - | 12.5 | - | - | 10 |
| 02700280 | Scaffold plate connector M16 for steel 6mm holes | M16 | - | 6 | - | - | 10 |
