## 0160 - Window Frame Anchor

### Description

Used for mounting PVCu window frames to brickwork and masonry. The zinc coated steel screw and nylon body give good corrosion protection. The anchor is expanded by tightening the screw with a screwdriver or electric screwdriver, the reinforced nylon cone is drawn into the sleeve and the fixing expands without applying pressure to the frame. This helps prevent distortion of the frame, keeping it in line and square.

### Advantages

- Through fixing
- Zinc plated
- White caps available for neat finish
- Nylon body gives long life
- Countersunk head allows flush finish
- Anti rotation lugs to prevent spinning

### Typical applications

- Door frames
- Window frames
- Garage door frames
