

30 April 2026

Dear Sir/Madam

Expamet price increase – 1 June 2026

The current macroeconomic and geopolitical situation has resulted in increases to our input costs, including steel, energy and transport, which we do not expect to ease in the near future.

Our aim, especially in this difficult market environment, is to pass on additional costs only to the extent that we are unable to absorb them. Accordingly, we are implementing a general price increase of 12% to our list prices, effective 1 June 2026.

New prices will apply to all despatches from 1 June 2026. We reserve the right to limit acceptance of exceptionally large orders placed in May to ensure we can satisfy the needs of all customers. The minimum order value for carriage paid will also rise by 12%.

We thank you for your understanding and continued support.

Yours faithfully

Neil Mason
Managing Director
