Advance Notice of Pricing Alignment – Effective 1 June 2026

Dear Tyler & Jack,

We hope you are well and would like to take this opportunity to thank you for your continued partnership and support.

We are writing to provide advance notice of a pricing alignment that will take effect from **1 June 2026**. As a valued customer, we want to ensure you have clear visibility of the changes and the reasons behind them.

Summary of Changes:

- An average increase of **6%** will apply to the majority of product lines sourced from Poland
- **Foam product ranges** will increase by **10%**
- The following categories will remain at current pricing and are excluded from this adjustment: **drywall screws, wood screws, first fix nails, nails for concrete & steel and it's accessories**
- A number of additional commodity product lines will also remain price-held at this time.

Our Approach:

We understand the importance of cost stability within your business and have worked hard to minimise the impact of these changes wherever possible. However, sustained increases in **steel and polymer raw materials**, together with ongoing **transportation and freight cost pressures**, mean that a targeted price adjustment is now necessary.

Where possible, we have taken the decision to protect key commodity lines to help support your competitiveness, while ensuring we can continue to deliver the quality, reliability, and service standards you expect from us.

I'm always available to discuss any aspect of these changes and to support you in planning for the transition. We are committed to maintaining a strong and collaborative partnership and greatly appreciate your understanding as we adapt to these market conditions together.

Please do contact me or our customer services team for your updated price file.

Thank you once again for your continued business.

Best Regards,

RAWLPLUG UK
