Code for Construction Product Information (CCPI)

The aim of the Code for Construction Product Information (CCPI) is to raise standards in construction product information and marketing, and to drive positive cultural change in the manufacturing and supply sector. This is achieved by promoting clear, accurate, accessible, up-to-date, and unambiguous product information.

The CCPI assessment process includes critical components, such as Leadership and Culture, as well as ongoing Registration elements, which are not found in other assessments within the construction sector for manufacturers and their product information. These components, along with other aspects of CCPI Registration; such as the online Issues Portal; offer valuable assessment criteria and continuous engagement, helping users and specifiers gain more confidence that they are working with manufacturers and suppliers committed to continuously improving their product information. **However, please note that conformance with CCPI is not a guarantee of product information accuracy and should not be used as such.**

For us as Merchants and Distributors, the CCPI includes a four-clause code covering a range of responsibilities. These responsibilities include requirements to maintain audit trails for all product information, have a documented sign-off process, and establish a company policy and practice to promote the Manufacturers' CCPI and assessment to its suppliers.

This mark means that we as a Merchant and/or Distributor of Construction Products are committed to the "Code for Construction Product Information - Merchant & Distributor Version". Independent assessment has been carried out to confirm that as organisation we have the necessary culture and product information management processes and systems in place to uphold the CCPI, and that we will adhere to the clauses diligently and proactively, promoting and supporting the adoption of the Code with our suppliers and playing an active part in the continuous improvement of product information and marketing.

As a CCPI Assessed Merchant and Distributor we also have responsibility to ensure that we clearly and unambiguously market those construction products carrying the CCPI Assessment Mark where provided by our suppliers. Our on-going registration with CCPI supports driving much needed change and improvement.

For the avoidance of doubt, construction product information carrying the CCPI Assessment Mark will be signified by the CCPI Mark (example shown below) carrying its unique assessment identification number and expiry date.

Please note, this only applies to the products covered specifically by that unique mark and identification number. This means that only this product information has been independently assessed by CPI Ltd as registered with and conforming to the Code for Construction Product Information.

Any products which are displayed not carrying the CCPI assessment mark have not been independently assessed as conforming with the CCPI. This mark is not a generic guarantee and should not be used as such.

For more information, visit the CCPI website at www.cpicode.org.uk

About VJ Technology

We're a market leader in manufacturing, distributing and testing fixings, fasteners and building consumables, anchoring ourselves as a premier impartial supply chain partner to the construction and infrastructure sector for over 30 years.

With a focus on technical connections to timber, concrete, masonry, timber and steel we have an in-house UKAS Accredited Laboratory and a qualified technical department offering advice, testing, specification and bespoke calculations to our clients. We have over £6 million of quality, brand leading products in stock ranging from fixings, fastenings, sealants, screws, anchors, power tools and much more.

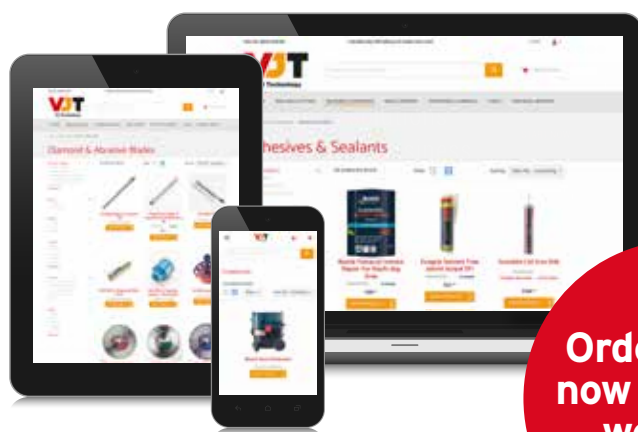

First Class Delivery Service

- We aim to deliver the next day, before 12pm - subject to slot availability
- A booking in process will be carried out by our experienced team
- Expected time of arrival updates are available
- VJ Technology are FORS Gold Accredited

We have a fleet of our own vehicles delivering your fixings and accessories across the south east, midlands and Bristol, the north west and Glasgow and Edinburgh.

Visit our Trade Counters

We have a trade counter in Ashford and in Glasgow, where you'll find a variety of high quality products ranging from drill bits, power tools, sealants, blades, cutting discs and so much more. We also have direct access to over £6M of products in our warehouse just in case we don't have what you need on display.

**Order online
now from our
website!**

How to find us

Ashford - Mon-Fri: 7am-5pm / Sat: 8am-12 noon - Technology House, Brunswick Road, Ashford, Kent, TN23 1EN

Glasgow - Mon-Fri: 8am-5pm Unit 9, Maclellan Street, Glasgow G41 1RR

VJ iStore® is an innovative, next-generation procurement solution from VJ Technology. A first of its kind, that enables fast-paced construction projects to keep an expansive stock holding of our high-quality fixings, fasteners and building consumables directly on-site.

By bringing our warehouse to a dedicated on-site room or through one of our bespoke containers, projects utilising a VJ iStore® are fed a constant supply of their favourite items that can be clicked and collected in a matter of minutes.

Benefits

Inspired by the Amazon locker solution, the VJ iStore® offers incredible benefits:

- ✓ Up to 70% reduction in carbon emissions caused by daily deliveries to site.
- ✓ 24 hours a day / 7 days a week access to a supply of products specifically tailored to your project.
- ✓ Reduced loss and theft of products from busy sites.
- ✓ Increased productivity as items are available when required - no time wasted awaiting deliveries.
- ✓ Local on-site control and ordering at the point of need.
- ✓ Supports clients cash flow as the solution negates the need to pre-order stock in advance.
- ✓ We provide a dedicated team to execute a supply program aligned with your strategic goals.
- ✓ Onsite and offsite technical product support.

Why choose VJ iStore®?

It's safe, secure, and intelligent. And completely autonomous.

Through a patent-pending process that uses intelligent stock control, multi-point security and a click-and-collect web ordering system, VJ iStore®'s are packed with the latest autonomous technology to be online 24 hours a day, 7 days a week.

Ordering from the VJ iStore® online portal is seamless and works across any mobile or desktop device. Once an order is placed, a unique access PIN code is generated and sent to your mobile device ready for order collection at your chosen entry date and time.

A bespoke and scalable solution.

Giving a new lease of life to shipping containers that are modular by design, we can create VJ iStore® builds that are tailored to your site space and supply needs. Whether it's a single 20ft container, or two double-stacked 40ft HC containers, there are no limits and there is a solution for every site.

An inventory that evolves with you.

The technology aside, your VJ iStore® inventory is what keeps projects moving at breakthrough levels of productivity and efficiency. A dedicated VJ iStore® account manager works alongside you to ensure your inventory is kept in constant supply of your most popular items, and any new ones you have on your watchlist for the next phase in your development.

A win for productivity.

A bigger win for the environment.

VJ iStore®'s help spread a positive reduction of emissions across the construction supply chain, thanks to the solution's simple model; we drive less and stock more, enough to last weeks at a time, so we keep more of our vans off the road each week. This means our road emissions reach new lows, whilst on-site productivity reaches new highs.

Technical Services

How We Can Help

The technical team at VJ Technology work in partnership with suppliers, major contractors and trade associations and ensure compliance with European/ British Industry Standards and Regulations relating to the performance and safe use of fixings, fastenings and consumables.

Design & Specification Support

- Assistance with technical anchor design complying to responsibilities outlined in BS8539:2012+A1:2021.
- Anchor guidance/ recommendations covering a wide range of applications.
- Early Design Intervention.

Site Support & Training

- CFA Approved on-site testing to BS 8539:2012+A1:2021 (up to 600 kN).
- UKA accredited for site tensile and shear load testing of heavy duty anchors in concrete and masonry.
- Anchor installation training and toolbox talks.
- PAT and Gas Tool Training

DesignFix Software

The mechanical and chemical anchor and post-installed rebar calculation software. Latest update allows design for up to 100 years working life to EN 1992-4 (on selected products)

CPD Seminars

Available on and off site - Introduction to BS8539:2012+A1:2021 - code of practice for selection and installation of post-installed anchors, latest design standard EN1992-4 (Eurocode 2 part 4) and DesignFix anchor calculation software.

Sustainability at VJ Technology

VJ Technology is on a journey to become more than just a carbon-neutral company, and we believe a journey of this magnitude is best taken with others involved too.

Through collaborative practices with our suppliers and customers, to colleague education programmes working with environmental charities and planet-first organisations, our mission stretches much wider than the four walls of our building, supporting livelihoods and ecosystems around the world during the road to net-zero.

This collaborative mindset in our DNA will help us achieve an even more significant impact by engaging with others in our environmental work. We will learn from feedback and are committed to working with others in our network to influence widespread change across all our business activities. Being transparent about the challenges we face and milestones we achieve we hope to inspire others to take action too.

Our Focus

Our People

- Making sure every single one of our people feels equally involved in our environmental roadmap.
- Focus sessions with all departments to listen for feedback and encourage new ideas pertinent to their role within the business.
- Education days with local conservationists and charities to always improve our awareness.

Our Environment

- To create new, restore and protect endangered habitats around the globe and our local area.

Our Industry

- There's no denying it, the construction sector is heavily dependent on resources and supplies that use incredible amounts of energy whilst emitting high levels of greenhouse gases.
- Innovation is paramount. To truly make a tangible impact in this industry we must think beyond our current procedures for new solutions that put the planet first.

Our Network

- With a large supplier and customer network from across the U.K, Europe and the wider globe, we're actively seeking to collaborate on both sides for more sustainable product and procurement solutions, that will have a positive environmental impact right through the supply chain.

Our progress so far

Low and Zero-Emission company cars

All new company cars for our on-the-road employees are now fully electric or hybrid and can be charged through our new EV charging points now offered at our Ashford Head Office.

Sustainable printing, with PaperCut

A silent print-management software that works in the background to monitor print usage both at department and individual levels to spot trends and prevent wasteful printing. PaperCut actively encourages users to print double-sided, in black and white and provides detailed reports on our usage and its impact on the environment.

Turning the tide on ocean plastic, with Ocean Bottle

A small bottle, with a big impact. We've partnered with Ocean Bottle to turn the tide on ocean-bound plastic in the world's most affected areas. Learn more about the VJT x OB Partnership [here](#).

Efficient route-planning, with Elogi Transport Management System

With real-time traffic monitoring and intelligent route-planning, TMS works in the background to maximise the loads on our vehicles and plan only the most efficient routes for our fleet of vehicles that help reduce miles, CO2 and time.

Monthly Carbon Calculations

After recently receiving our silver status from the Supply Chain Sustainability School we now work closely with their carbon calculator software to log monthly outputs and measure performance as we work towards gold status.

What's next?

Less product waste, with our new Stock Profiler.

By using machine learning through our purchasing habits our new stock profiler will make sure we strike the perfect balance of enough stock on our shelves for prompt supply whilst preventing over-stocks or having too much of items with expiry dates.

VJ iStore - The Future of Sustainable Construction Procurement

A strategic solution to sustainable, on-demand procurement. Using bespoke modular containers with intelligent stock control, security and a click-and-collect ordering system, fast-paced sites can request for iStore containers on a number of flexible contracts that can help drastically improve project efficiency whilst reducing harmful delivery emissions.

Carbon Balanced Paper

All offices and our printed marketing communications such as catalogues and product datasheets will move to 100% carbon balanced paper, in collaboration with the World Land Trust. A charity endorsed by Sir David Attenborough, Steve Backshall, David Gower & Chris Packham.

Sustainable Product Range

Continual market research to find and work closely with suppliers who are manufacturing sustainable products. This product range will then be offered to our customers during tenders to promote and educate sustainable alternatives.

Customer Carbon Reporting

We are aiming to be able to report to our customers the carbon impact of their ordering pattern and provide ways in which they can alter their behaviour to reduce their impact.

XPE440 Epoxy Injection Mortar	10
-------------------------------	----

XPE440 Epoxy Injection Mortar

Description

XPE440 is VJT's ultimate performance pure epoxy injection mortar with approvals for anchoring and rebar connections. This product is used in conjunction with a hand, battery or pneumatic tool and static mixer nozzle.

CCPI verified product information: Verification Number 002400004/0925

Usage/Purpose

XPE440 is suitable for anchoring of façades, roofs, wood construction, metal profiles, columns, beams, consoles, railings, sanitary devices, cable trays, piping, post-installed rebar connections and more. Especially suitable for applications with deeper embedment depths due to high flow properties.

Key Benefits

- ETA/UKTA for cracked and non-cracked concrete, C20/25 to C50/60 (EN 1992-4)
- ETA/UKTA for post-installed rebar connections up to 40mm Ø (EN 1992-1)
- ETA for rebar improved splitting in accordance to TR069
- Approved for seismic performance categories C1 and C2
- Anchors designed according to EN 1992-4 standard (Eurocode 2 Part 4) for maximum safety and efficiency
- Additional provisions within in the ETA/UKTA for 100 year working life
- Compatible with hammer or diamond drilled holes
- Very high load capacity in cracked and non-cracked concrete
- Suitable for dry and wet concrete including flooded holes (bonded anchors)
- Suitable for overhead application
- Fire rating resistance ~ R120
- EPD Declaration number: EPD-VJT-20240220-CBA1-EN
- NSF approval for potable water
- High chemical resistance
- Low odour
- Small allowable edge distance and anchor spacing
- Superior performance in heavy-duty anchoring applications
- Conforms and verified to the Code for Construction Product Information (CCPI)
- Design check can be performed using free VJT DesignFiX software - alternatively contact technical@vjtechnology.com to model applications.

Please refer to injection mortar ETA or UKTA data sheet prior to ordering installation and cleaning equipment to remain compliant to the products ETA or UKTA, bond strength performance can be reduced if installation instructions are not followed.

Full technical data and additional information available at www.vjtechnology.com or contact our Sales or Technical Team.

Chemical anchor studs, all thread studding and internally threaded sockets M8 up to M30 mild steel in various grades (self-colour, zinc plated and HDG), A2 and A4 stainless steel. Other materials or coatings available upon request, HCR 1.4529 and other diameters of studding also available to order.

V420+® v3 Hybrid Injection Mortar

Description

V420+® v3 is VJT's ultimate performance hybrid injection mortar with approvals for anchoring and rebar connections. This product is used in conjunction with a hand, battery or pneumatic tool and static mixer nozzle.

CCPI verified product information: Verification Number 002400004/0925

Usage/Purpose

V420+® v3 is suitable for anchoring of façades, roofs, timber construction, metal profiles, columns, beams, consoles, railings, sanitary devices, cable trays, piping post-installed rebar connections and more.

Key Benefits

- ETA/UKTA for cracked and non-cracked concrete, C20/25 to C50/60 (EN1992
- ETA/UKTA for post-installed rebar connections up to 32mm Ø (EN 1992-1)
- ETA for rebar improved splitting in accordance to TR069
- Approved for seismic performance categories C1 and C2
- Anchors designed according to EN 1992-4 standard (Eurocode 2 Part 4) for maximum safety and efficiency
- Additional provisions within in the ETA/UKTA for 100 year working life
- High load capacity in cracked and non-cracked concrete
- Suitable for dry and wet concrete including flooded holes (bonded anchors)
- Suitable for overhead application
- Fire rating resistance ~ R120
- NSF approval for potable water
- High chemical resistance
- Low odour
- Small allowable edge distance and anchor spacing
- Superior performance in heavy-duty anchoring applications
- Conforms and verified to the Code for Construction Product Information (CCPI)
- Design check can be performed using free VJT DesignFiX software - alternatively contact technical@vjtechnology.com to model applications.

E410+® Epoxy Acrylate Injection Mortar

Description

E410+® is VJT's high performance epoxy acrylate injection mortar with approvals for non-cracked concrete and masonry substrates. This product is used in conjunction with a hand, battery or pneumatic tool and static mixer nozzle.

CCPI verified product information: Verification Number 002400004/0925

Usage/Purpose

E410+® is suitable for anchoring of facades, roofs, timber construction, metal profiles, consoles, railings, sanitary devices, cable trays, piping, fixing to masonry and more.

E410+® injection mortar is designed to be used in conjunction with the following:

- Threaded rods e.g., VJT Chemical Anchor Studs, available in carbon steel (zinc/HDG) and stainless steel (A2/A4). High corrosion resistant anchor studs available on request.

Key Benefits

- ETA/UKTA for non-cracked concrete bonded anchors, C20/25 to C50/60
- ETA/UKTA for use in masonry applications
- Suitable for dry and wet concrete
- Suitable for overhead application
- High chemical resistance
- Low odour
- Small allowable edge distance and anchor spacing
- Conforms and verified to the Code for Construction Product Information (CCPI)

EC410+® Epoxy Acrylate Injection Mortar

Description

EC410+® is VJT's express cure, high performance epoxy acrylate injection mortar with approvals for non-cracked concrete and masonry substrates. This product is used in conjunction with a hand, battery or pneumatic tool and static mixer nozzle.

CCPI verified product information: Verification Number 002400004/0925

Usage/Purpose

EC410+® is suitable for anchoring of facades, roofs, timber construction, metal profiles, consoles, railings, sanitary devices, cable trays, piping, fixing to masonry and more.

EC410+® injection mortar is designed to be used in conjunction with the following:

- Threaded rods e.g., VJT Chemical Anchor Studs, available in carbon steel (zinc/HDG) and stainless steel (A2/A4). High corrosion resistant anchor studs available on request.

Key Benefits

- ETA/UKTA for non-cracked concrete bonded anchors, C20/25 to C50/60
- ETA/UKTA for use in masonry applications
- Suitable for dry and wet concrete
- Suitable for overhead application
- High chemical resistance
- Low odour
- Small allowable edge distance and anchor spacing

410+ and P300+ Polyester Resin & Nozzle with ETA 410ml**Description**

P410+ and P300+ Polyester Resin with ETA for non-cracked concrete available in 410ml Standard Size and 300ml for the infrequent user. For Chemical Anchor Studs and Remedial wall ties in solid and hollow base materials (with sieves non-ETA). Basic Polyester Resin is suitable for economic fixings into most masonry units (non-ETA).

Typical Applications

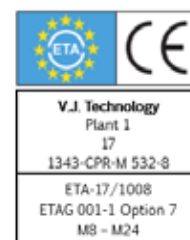

- Remedial wall ties
- Gallows brackets
- Roller shutter doors
- Storage and racking systems
- Canopies
- Hand Rails

Key Benefits

- ETA for non-cracked concrete
- Cost Effective Polyester Resin
- Available in 410ml Standard Size and 300ml for the infrequent user
- Suitable for solid and hollow base materials
- The 300ml cartridge can be used with standard mastic guns
- Extension tubes available for remedial wall ties
- Sieves available for use in hollow materials

Fischer FNA II Nail Anchors

The Fischer FNA II with a nail head is made from zinc-plated steel, stainless steel (also available in highly corrosion-resistant steel). The FNA II is primarily suitable for the anchoring of fire protection boards, ventilation systems, metal rails, and subframe systems. The European Technical Approval and classification as per fire resistance class R 120 ensure added safety.

**Other sizes and finishes available upon request. Please contact our sales team.*

Fischer Nail Anchor FNA II Zinc Plated

Item Number	Item Description	Anchor Length	Drill Diameter (mm)	Max Fixture Thickness (mm)	Pack Quantity

Insulation Anchors

Insulation Anchor 304 Stainless Steel Toge TIDR

Insulating anchor for cold-, heat- and fire-protection. A2 stainless steel for use in a damp environment.

Item Number	Anchor Size/Length (mm)	Head Diameter (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01700010	8 x 80	35	30	8	250
01700020	8 x 110	35	70	8	250
01700025	8 x 120	35	80	8	250
01700030	8 x 140	35	100	8	250
01700035	8 x 170	35	130	8	250
01700050	8 x 200	35	160	8	250
01700060	8 x 250	35	210	8	200
01700070	8 x 300	35	260	8	200

Insulation Anchor Disc 304 Stainless Steel for Soft Insulation. Coloured caps available on request

Item Number	Drill Diameter (mm)	Pack Quantity
01700040	80mm Ø	250

Insulation Anchor Zinc - Toge TIDR

Insulating anchor for cold-, heat- and fire-protection. Zinc plated for use in a dry environment

Item Number	Anchor Size/Length (mm)	Head Diameter (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01700090	8 x 80	35	50	8	250
01700100	8 x 110	35	75	8	250

01700140	8 x 200	35	150	8	250
01700150	8 x 250	35	200	8	200
01700160	8 x 300	35	250	8	200

Insulation Anchor Disc 304 Stainless Steel for Soft Insulation. Coloured caps available on request

Item Number	Drill Diameter (mm)	Pack Quantity
01700170	80mm Ø	250

Insulation Anchor Rigid (head diameter 35mm)

A one-piece fixing manufactured from corrosion resistant Polypropylene. The head diameter is 35mm and features a rough surface to provide a key for applied renders. Available in varying lengths to suit a wide range of insulation thicknesses and is installed into an 8mm diameter pre-drilled hole.

Item Number	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01800010	8 x 50	30	8	500
01800020	8 x 70	40	8	500
01800030	8 x 90	60	8	500
01800040	8 x 110	80	8	500
01800045	8 x 130	100	8	500

Insulation Support Anchor DH - 2 Piece Anchor (sold separately)

For fixing thermal insulation to rear ventilated facades. Suitable for blockwork, brickwork and concrete. Manufactured from high grade polyethelene with Innovative two part system creates set embedment depth. Prevents sideways buckling of the shank and prevents quilting of insulation.

Item Number	Item Description	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01900020	DH Shaft	8 x 80	60	8	100
01900030	DH Shaft	8 x 100	80	8	100
01900040	DH Shaft	8 x 120	100	8	100
01900430	DH Shaft	8 x 180	160	8	100
01900430	90mm Disc to suit DH shaft				300

Ejot Insulation Anchor IDK-N

Hammer-in anchor with plastic nail, fastening insulation boards (without ETA approval). Fixing to blockwork (minimum 7Nm strength) or brickwork. Polypropylene body with plastic expansion pin, head diameter 60mm.

Item Number	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01900076	8 x 75	40	8	100
01900077	8 x 95	60	8	100
01900078	8 x 115	80	8	100
01900080	8 x 135	100	8	100
01900090	8 x 155	120	8	100
01900100	8 x 175	140	8	100
01900430	8 x 180	160	8	100

Spit Insulation Anchor ITW ISO

Expanding insulation anchor. Fixing all rigid insulation or flexible insulation (using the plastic washer Ø90) on solid or hollow material. Internal and external insulation board (EWI).

Item Number	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01900130	10 x 115	85	10	200
01900140	10 x 135	105	10	200
01900150	10 x 155	125	10	200
01900155	10 x 215	185	10	200

Ejot Insulation Anchor N1

Hammer-in anchor with solid steel nail. For fixing of insulation in ETICS and Rainscreen systems. Useable for all building materials (A, B, C, D, E). Washer Diameter 60mm and can be used with additional extension washer.

Item Number	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Pack Quantity
01900200	8 x 215	180	8	100
01900210	8 x 235	200	8	100
01900220	8 x 255	220	8	100

Ejot Insulation Screw DDS-Z RAL9002 - Grey White

Carbon steel fastener with a corrosion resistant duplex coating. For fixing insulation and acoustic boards to concrete soffits. For fixing insulation systems to ceilings. Steel anchor - no relaxation. Fast and simple installation. Has a 24mm dia head and can be used with separate DDT-70 galvanised steel spreader washer.

Item Number	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Screwdriver Bit/ socket Size	Pack Quantity
13665480	7.3 x 50	10 - 25	6	T30	100

Toqe Insulation Screw TIS - Beige

Insulating screw for cold-, heat- and fire-protection. Zinc plated fixing for an application in dry interiors and in environments of the corrosivity category C1 and C2. Also available for outdoor applications without direct weathering and in environments of the corrosivity category C3 the special zinc flake coating TOGE-KORR is available upon request from the sales team.

When fixing insulation material with a very soft surface structure, an additional plate with Ø 80mm is available.

Fischer FBS II Ultracut Concrete Screw

High-performance concrete screw with upto 3 embedment depths. ETA Option 1 in Cracked and Non-cracked concrete, seismic categories C1 and C2. The concrete screws FBS II 8, 10, 12 and 14 are also approved for multiple use in temporary fixings (e.g. inclined supports) after a verification with the checking gauge FUP. Full product details and datasheets available on request.

Suitable for building materials, such as:

- Cracked concrete
- Non-Cracked concrete
- Masonry brick*
- Solid sand-lime brick*
- Perforated sand-lime brick*

* ETA recommendation for diameter 8 and 10

FBN II Fischer Throughbolt

The fischer bolt anchor FBN II is a steel anchor for cost-effective fixations in non-cracked concrete. Thanks to its long thread and the two anchorage depths, the fischer bolt anchor FBN II is particularly flexible. In addition to pre-positioned and push-through installation, the bolt anchor is suitable for stand-off installation.

Fischer FAZ II Plus Throughbolts

ETA confirms the use of the FAZ II Plus for dynamic loads for diameters M16-M24. The fast installation process of the FAZ II Plus provides an efficient fixing solution for dynamic applications with low load cycles with an immediately loadable fixing point. Numerous approval certificates for different substrate materials (concrete C12/15-C80/90, steel fiber concrete, solid sand-lime brick). Suitable for building materials such as Cracked and Uncracked concrete, Steel fiber concrete and Solid sand-lime brick.

Rawl R-XPT Throughbolts

High performance in non-cracked concrete confirmed by ETA Option 7. Suitable for reduced embedment to avoid contact with reinforcement. Embedment depth markings help to ensure precise installation of the anchor.

Fischer Zykon Undercut Anchor FZA

Fischer Zykon Undercut Anchor

Fischer ZYKON bolt anchor FZA. The special drill bit FZUB is used to create the undercut drill hole in a single work step. The undercut anchor is set in the pre-positioned installation. The expansion sleeve is driven above the cone with the setting tool FZE Plus and fills the undercut drill hole with a positive fit. The fischer ZYKON bolt anchor FZA is ideal for fixing façades, railings, and steel constructions within external areas in cracked concrete.

Item Number	Anchor Size/Length (mm)	Fixture Thickness (mm)	Drill Diameter (mm)	Screwdriver Bit/ socket Size	Pack Quantity
04850010	M12/25P (18 x 80)	25	18	SW19	10

44640	Fischer Setting tool FZE 18 plus	FZA 18 x 80	1

Fischer FHII Heavy Duty Anchor

International approvals guarantee maximum safety and the best performance. The European Technical Assessment even cover use in earthquake zones (seismic C1 and C2). The anchor is designed with different head styles for fixing points with aesthetic design. The design between the bolt and the sleeve ensures high shear load-bearing capacity. Thus, fewer fixing points are required. The unique geometry minimises the energy required for installation and thus allows for fast installation. The use of hollow drills is included in the approval.

FH II-H High Performance Anchor with Cap Nut

Plasterboard Fixings

A self drilling anchor designed for fastening light to medium loads to plasterboard and other thin wall materials. To use in plasterboard, simply screw the anchor into the board using a screwdriver or power screwdriver. The point drills a pilot hole followed by a coarse, helical thread biting into the plasterboard making the fix. The screw supplied is then used to mount the fixture.

Typical applications

- Bathroom accessories
- Bracketry
- Mirrors
- Fuse boxes
- Signage
- Dado Rails

Product Range

Item Number	Item Description	Thread (mm)	Max Fixture Thickness (mm)	Screw Length (mm)	Anchor Length(mm)	Box Qty
00100010	Driva TP12 - Pan Head Screw. Max fixture thickness 12mm (059360)	4.0	12	35	31	100

00100080	Fischer FID 50 Plastic Insulation Anchor	4.5	-	-	50	50

Spring Toggles

The spring toggle is a metal fixing for use in hollow materials. It offers high loadings in plasterboard as the wings spread the load over a wide area. The two wings fold back to pass through the plasterboard and spring open to grip over a wide area.

Typical applications

- Electrical fittings
- Bathroom fixtures
- Mirrors
- Ceiling fittings
- Curtain rails
- Dado Rails

Metal Cavity Anchor

A metal fixing for use in hollow materials. The expanding legs ensure large surface area contact, giving good performance values in weak materials. It can be used to fix into Plasterboard, clay pot ceilings, hollow blocks, etc. The smaller sizes can be used to fix into hardboard and plywood.

The screw can be removed and refitted allowing the fixture to be removed for decorating.

RawlNut™

A problem solving fixing. Suitable for virtually any material, either solid or hollow, eg metal sheet, plasterboard, plywood, brickwork, hollow block, etc. Gives a secure fixing in brittle or unknown substrates. Ideal for fixing in irregular or oversized holes.

Advantages

- Resistant to vibration and corrosion
- Flange holds fixing flush to wall surface
- Sleeve compresses to provide secure fixing, even in irregular shaped holes
- Made from synthetic rubber
- Provides a waterproof seal
- Bonded brass insert

Typical applications

- Switch Boxes
- Overhead Services
- Curtain rails
- Cable Trays
- Boilers

Introduction

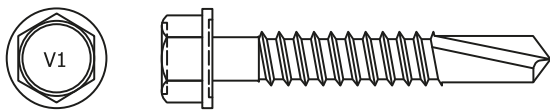

The term self-drilling screw covers a wide variety of products which all have their own specification and applications, depending on the job requirement. Known for their ability to drill through material without the need for a pre-drilled hole, the screw itself has a drill bit end allowing for application into timber and metal. This combination provides a fast and efficient means of connecting two materials. There is no need for a pilot drill as this aspect of the process is performed during the installation of the screw. Available in a variety of finishes and sizes.

DrillTech Range

■ Carbon

CSLS - Light Section Self Drilling Screw

Application Fixing metal sheeting and cladding to light steel purlins and sections.

Drilling Capacity: 1.2mm to 5.0mm **Box Qty:** 100

Product Code	Size	ECR	Carton Qty
13600010	5.5 x 25	1.2 - 8mm	4,800
13600020	5.5 x 32	1.2 - 14mm	3,600
13600030	5.5 x 38	1.2 - 20mm	2,400
13600040	5.5 x 50	1.2 - 32mm	2,400
13600050	5.5 x 70	1.2 - 51mm	2,400
13600060	5.5 x 82	20 - 62mm	1,600
13600070	5.5 x 98	36 - 78mm	1,200
13600080	5.5 x 160	100 - 136mm	800

13600090	5.5 x 25	1.2 - 6mm	2,400
13600100	5.5 x 32	1.2 - 12mm	1,600
13600110	5.5 x 38	1.2 - 18mm	1,600
13600120	5.5 x 50	1.2 - 30mm	1,600
13600130	5.5 x 70	1.2 - 49mm	1,600
13600140	5.5 x 82	20 - 60mm	900
13600150	5.5 x 98	36 - 76mm	600
13600160	5.5 x 160	100 - 134mm	600

With Bonded Washer: G16

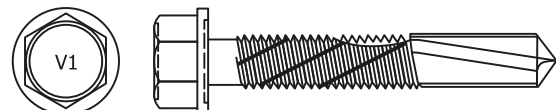

Installation Tips for Self-Drill Screws

- Use correct speed screw gun (1,500 up to 1,700 rpm) screw-gun with depth setting nosepiece to install with the correct speed
- Ensure fastener is fully seated when head is in contact with material surface, bonded washers should not compress >66% of original thickness
- Carbon Steel Screws - Minimum of three threads should protrude through the rear of the steel structure
- Bi-Metal Screws - Minimum of 5 threads should protrude through the rear of the steel structure
- Never use a impact gun for installation! They can cause the fastener to break, damage the coating and reduce pull out performance

■ Carbon

CSHS - Heavy Section Self Drilling Screw

Application Fixing metal sheeting and cladding to heavy steel purlins and sections.

Drilling Capacity: 5.0mm to 12.0mm **Box Qty:** 100

Product Code	Size	ECR	Carton Qty
13600170	5.5 x 32	5 - 10mm	3,600

13600330	5.5 x 130	44 - 88mm	600
13600340	5.5 x 150	59 - 103mm	600

With Bonded Washer: G16

■ Carbon

CSLSS - Stitching Screw

Application Stitching sheet metal without needing to pre-drill.

Drilling Capacity: 0.8mm to 3.0mm **Box Qty:** 100

Product Code	Size	ECR	Carton Qty
13600350	4.8 x 19	1.2 - 9.0mm	4,800

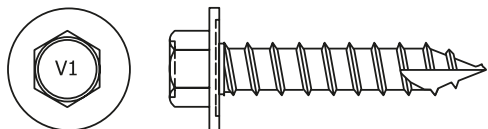

Drilling Capacity: 0.8mm to 1.6mm **Box Qty:** 100

13600360	6.3 x 25	1.2 - 7.0mm	2,000
With Bonded Washer: G16			

■ Carbon

CSTT - Gash Point Screw

Application Fastening thin metal sheeting to timber frames without needing to pre-drill.

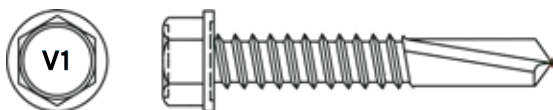

Product Code	Size	Carton Qty
13600840	6.5 x 32	4,800
13600850	6.5 x 45	4,800
With Bonded Washer: G16		

■ Carbon

CSDS - Composite Fire Panel Screw

Application Fastening composite fire panels to light steel

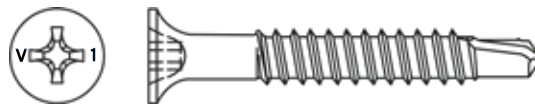

Drilling Capacity: 5.0mm to 12.0mm **Box Qty:** 100

Product Code	Size	Carton Qty
13601160	5.5 x 40	2,400

■ Carbon

CSLSB - Bugle Head Self Drilling Screw

Application Fixing insulation to light steel substructure.

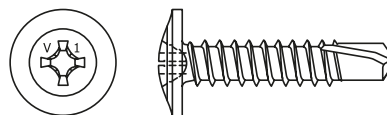

Drilling Capacity: 0.8mm to 2.0mm **Box Qty:** 100

Product Code	Size	Carton Qty
13601610	4.8 x 50	3,600
13601620	4.8 x 60	3,600

**Ejot Insulation Washer ITS 5/60**

Polyamide disc washer to combine with wood screws.

Item Number	Washer Diameter (mm)	Hole Diameter (mm)	Pack Quantity
01900008	60	5.4	100

Ejot insulation Washer SBV 90

For retaining mineral wool and rigid insulation back to steel frame systems, timber studwork, plywood, orientated strand board and some cement particle boards.

Compatible Fasteners:

- JT2 D6 5.5/6.3
- JT2 D12 5.5/6.3
- JT3 D6H 5.5/6.3
- JT3 D12H 5.5/6.3
- JA3 6.5
- JZ3 6.3
- TKR 4.8
- TKE 4.8
- SW8-R 4.8
- SW8-RT 4.8
- JT3 ST2 6.0
- JT2 ST2 6.0

Item Number	Washer Diameter (mm)	Hole Diameter (mm)	Pack Quantity
01900860	90	6.5mm	100

Ejot HTV40 SS Washer

To retain insulation in certain rainscreen and other applications.
Can be used in conjunction with the DMT spreader washer for load spreading.

Item Number	Washer Diameter (mm)	Hole Diameter (mm)	Pack Quantity
13651120	40	8	100

DDT 70 Washer

Galvanised steel washer. Used in conjunction with the DDS anchor for rigid insulation boards to spread the load.

Item Number	Washer Diameter (mm)	Hole Diameter (mm)	Pack Quantity
13651130	70	8	100

DMT Washers

For fastening soft insulating materials in combination with the EJOT® DMH metal insulation support anchor.
Fixing soft insulating materials for high fire protection requirements.

Item Number	Item Description	Washer Diameter (mm)	Pack Quantity
13653500	Ejot DMT 80E Stainless Steel	80	100
13665650	Ejot DMT 80V Carbon Steel	80	100

DMT 85/7E Washer

Rainscreen mineral wool insulation Centre Fix washer. High quality Stainless steel grade 304 St/St, ISO group A2.

Item Number	Item Description	Washer Diameter (mm)	Hole Diameter (mm)	Pack Quantity
13653510	Ejot DMT 85/7E to suit 5.5/6.3 self-drill hex head screw	85	7	100

ITW Spit Fixings

CFC16 & CFC24 Self drilling fasteners

Self-drilling fasteners for standing seam & clip fixing systems. Low profile TEK screw for fixing to steel.

Drilling Capacity: 0.9mm - 3.0mm

Item Number	Item Description	Size (mm)	Max Fixture Thickness (mm)	Drive Size	Pack Quantity
13601150	Buildex Tek CFC16 4.8 x 16 Low Profile (921259)	4.8 x 16	10	Ph 2	100
13630030	Buildex CFC24 (921165)	4.8 x 25	15	Ph 3	250

CFC26 Self drilling fastener

Self-drilling fasteners for standing seam & clip fixing systems. Low profile TEK screw for fixing to steel.

Drilling Capacity: 0.9mm - 5.0mm

Item Number	Item Description	Size (mm)	Max Fixture Thickness (mm)	Drive Size	Pack Quantity
13601190	Buildex Tek CFC26 Pancake 5.5 X 25 2PSD Drive (921166)	5.5 X 25	13	2PSD	250

2PSD Square drive bit (To suit CFC26)

Item Number	Item Description	Pack Quantity
13601200	Driver bit to suit CFC26	1

CFL32 Self drilling fastener

Self-drilling fasteners for standing seam & clip fixing systems. Low profile TEK screw for fixing to steel.

Drilling Capacity: 4.0mm - 12.5mm

Item Number	Item Description	Size (mm)	Max Fixture Thickness (mm)	Drive Size	Pack Quantity
13630050	Buildex CFL32 (921260)	5.5 x 32	15	Ph 3	500

Spit - Fixings for General Components to Steel

Self-drilling self-tapping fastener for fixing into steel section.

Item Number	Item Description	Size (mm)	Drive Size	Drilling Capacity	Pack Quantity
13630180	Buildex TC16 (920027)	4.8 x 16	8mm A/F	0.9 - 4.0mm	500
13630190	Buildex TC25 (920028)	5.5 x 25	8mm A/F	0.9 - 5.0mm	500
13630220	Buildex TC75 (921199)	5.5 x 75	8mm A/F	0.9 - 5.0mm	100
13630250	Buildex TL38 921203 (921203)	5.5 x 38	8mm A/F	4.0 - 12.5mm	200
13630260	Buildex TL50 (920128)	5.5 x 50	8mm A/F	4.0 - 12.5mm	200

Evolution Fixings

Evolution Hex Head Carbon Steel Light Section HWZP

Zinc Coated TEK 3 Range - Products for use in Light Gauge Steel Applications. With Electroplated Zinc Coating.

Drilling Capacity: 1.2 - 4.0mm

Item Number	Item Description	Size (mm)	Effective Thread Length (mm)	Drive Size	Pack Quantity
13606110	HWZP25-3	5.5 x 25	Fully Threaded	5/16" hexagonal	100

**Evolution Hex Head Carbon Steel SuperTEK 6 - TSBW With Washer**

High-end general construction fixing for use in demanding structural applications.
This variant is especially suited to fixing brick ties, components and bracketry to wind-posts, stanchions and columns.

Drilling Capacity: 4.0 - 16.0mm

Item Number	Item Description	Size (mm)	Effective Thread Length (mm)	Drive Size	Pack Quantity
13601245	TSBW5.5-38-6	5.5 x 38 (16mm washer)	Full	5/16" hexagonal	200

Evolution Hex Head Carbon Steel SuperTEK 7 - TSHW, TSBW, TSBWHT

Evolution Hex Head Carbon Steel SuperTEK 7 - TSHW, TSBW, TSBWHT

This variant is especially suited to fixing brick ties, components, bracketry and secondary frame elements/ sections to primary and secondary steel framing where a weather sealing washer is required is not required. Longer available lengths are particularly suited to fixing through twin-walled structural sections such as Square (SHS) or Rectangular (RHS) Hollow Box Sections or Parallel Flange Channels (PFC).

Drilling Capacity: 3.5 - 18.5mm

Item Number	Item Description	Size (mm)	Effective Thread Length (mm)	Drive Size	Pack Quantity
13606000	TSHW5.5-50-7	5.5 x 50	Full	5/16" hexagonal	100
13606010	TSHW5.5-75-7	5.5 x 75	Full	5/16" hexagonal	100

13606040	TSHW5.5-150-7	5.5 x 150	85.0	5/16" hexagonal	100

With bonded washer: High-end general construction fixing for use in demanding structural applications.

This variant is especially suited to fixing brick ties, components, bracketry and secondary frame elements/ sections to primary and secondary steel framing where a weather sealing washer is required.

Item Number	Item Description	Size (mm)	Effective Thread Length (mm)	Drive Size	Pack Quantity
13601250	TSBW5.5-50-7	5.5 x 50 (16mm washer)	Full	5/16" hexagonal	100
13606070	TSBWHT5.5-150-7	5.5 x 150 (16mm washer)	70mm (50mm Thread)	5/16" hexagonal	100

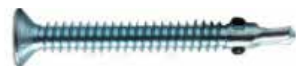

Evolution Hex Head Carbon Steel SuperTEK 8 - TSHW

This variant is especially suited to fixing brick ties, components, bracketry and secondary frame elements/ sections to primary and secondary steel framing where a weather sealing washer is required is not required.

Drilling Capacity: 4.0 - 22.0mm

Item Number	Item Description	Size (mm)	Effective Thread Length (mm)	Drive Size	Pack Quantity
13606050	TSHW6.3-60-8	6.3 x 60	Full	5/16" hexagonal	100
13606060	TSHW6.3-100-8	6.3 x 100	Full	5/16" hexagonal	100

Evolution Countersunk Carbon Steel Light Section Wing Tip ZWDP

Wing-Drill Self-Drilling Screw with CSK head fixing timber or composites to steel. With Zinc coating.

Drilling Capacity: 1.2 - 3.5mm

Item Number	Item Description	Size (mm)	Timber Capacity (mm)	Drive Size	Pack Quantity
13606780	ZWDP4.2-38-3	4.2 x 38	5-22mm	PH 2	100

Fischer Power-Fast II

The fischer chipboard screw PowerFast FPF II is a blue passivated zinc plating screw with a countersunk head, cross drive PZ drive screw. The screw is suitable for fixing load-bearing components in coated wood, hardwood, softwood, and timber connections.

- For use in load-bearing wooden constructions, for the connection of solid wood parts as well as glued laminated timber, cross laminated timber, etc.
- For metal parts to wood, e.g. metal fittings, angles, beam shoes and other metal and wood connections.
- Suitable for use with fischer plugs and recommended loads.

Power-Fast II CSK Pozi Blue Zinc Partial Thread

Countersunk head allows for surface flush installation in wood. The version with a partial thread enables the timber elements to be fastened together tightly.

Item Number	Size (mm)	Drive	Pack Quantity

Brass Woodscrews

Used as a decorative screw for an aesthetic finish or to match traditional Brass Ironmongery. Brass screws are also an alternative to steel in naturally acidic timbers and ideal for corrosive environments.

13000150	3.5 x 75	500
13000160	4.2 x 100	200

VJT Drywall Screw Coarse Black

Plasterboard fixing with coarse thread and sharp needle point. Bugle head to allow flush fitting and reduce the possibility of damage. Black phosphate finish and PH2 drive.

Item Number	Size (mm)	Pack Quantity
13000170	3.5 x 25	1000
13000180	3.5 x 32	1000
13000190	3.5 x 42	1000
13000200	3.5 x 50	500
13000210	3.5 x 65	500
13000220	3.5 x 75	500

Drywall Screws Selfdrill

Drywall Screw Selfdrill Waferhead BZP

Self Drilling Wafer Head fixings for metal to metal framework. BZP finish and PH2 drive.

Item Number	Size (mm)	Pack Quantity
13100120	4.2 x 13	1000

Drywall Screw Selfdrill Pan Head BZP

Self drilling Pan head screw for metal to metal applications. BZP finish and PH2 drive.

Item Number	Size (mm)	Pack Quantity
13100080	4.2 x 13	1000
13100090	4.2 x 19	1000
13100100	4.2 x 25	1000
13100110	4.2 x 32	1000

VJT Drywall Screw Selfdrill Bugle Head BZP

Self drilling bugle head screws for fixing drywall to steel track without pre-drilling. BZP finish and PH2 drive.

Item Number	Size (mm)	Pack Quantity
13100010	3.5 x 25	1000
13100020	3.5 x 32	1000
13100030	3.5 x 38	1000
13100040	3.5 x 42	1000
13100050	3.5 x 50	1000
13100060	4.2 x 65	200
13100070	4.2 x 75	200

Baypole Screws

Baypole Screws

Self drilling wafer head fixing with self tapping thread. Designed for joining bay window sections but often used for other door and window applications. BZP finish and PH2 drive.

Item Number	Length (mm)	Pack Quantity
13100130	50	200
13100140	60	200
13100150	70	200
13100160	80	200
13100165	90	200

Other Board Fixings

BG Glasroc Firecase Screw

Specifically designed for board-to-board fixing of Glasroc F FireCase board in the FireCase system. The unique head design countersinks into the board allowing easy finishing.

Item Number	Length (mm)	Pack Quantity
13100170	40	1000
13100176	50	1000
13100178	58	1000
13100179	70	500

Fermacell Screw

Screws designed for fixing fermacell Fibreboards to timber and metal sub-frames.

Item Number	Length (mm)	Pack Quantity
13100175	40	1000

Black Fibre Board Screws

Fixing for dense/hard surface boards also suitable for Fermacell. Case Hardened with Phosphate Black finish PH2 drive.

Item Number	Size (mm)	Pack Quantity
13100200	3.9 x 40	1000
13100210	3.9 x 55	100

Drywall Screws Collated

VJT Drywall Screws Collated Fine Thread Bugle Head BZP

Collated plasterboard fixing with sharp needle point. Bugle head to allow flush fitting and reduce the possibility of damage. BZP finish and PH2 drive.

Item Number	Size (mm)	Pack Quantity
13200001	3.5 x 25	1000

13210056	55	1000

Timco Drywall Screw Bugle Head Selfdrill Collated BZP

Self-drilling point to aid fixing plasterboard to wall /ceiling track systems with a max. of 2.0mm thickness. BZP with PH2 Drive.

Item Number	Length (mm)	Pack Quantity
13210060	35	1000
13210070	45	1000
13210072	50	1000

Timco Solo Screw Collated Woodscrew Z&Y

A single thread woodscrew mainly used in various types of timber and man-made boards.

Item Number	Length (mm)	Pack Quantity
13210170	55	1000

Timco Flooring Screw Collated Z&Y

For attaching internal flooring sheets and planks to timber joints. The collated strips are specifically designed to be compatible with all leading power tool brands. Square drive.

Item Number	Length (mm)	Pack Quantity
13210180	55	1000

Evolution Drywall Screws

Evolution Drywall Screw Wafer Head BZP

Sharp point wafer head drywall screw for the assembly of drywall track and ceiling track systems. BZP finish and PH2 drive.

Item Number	Length (mm)	Pack Quantity
13230120	13	1000

Evolution Drywall Screw Selfdrill Wafer Head BZP

Self Drilling wafer head drywall screw for the assembly of drywall track and ceiling track systems. BZP finish and PH2 drive.

Item Number	Length (mm)	Pack Quantity
13230130	12	1000

Evolution Drywall Screw Bugle Head Fine Thread BZP

Sharp point drywall screw fixing plasterboard to metal stud up to 1.2mm. BZP finish with PH2 Drive.

Item Number	Length (mm)	Pack Quantity
13230010	25	1000
13230020	32	1000

Masonry Screws

Fischer 7.5 FFS Masonry Screws

The fischer frame fixing screw FFS gives stress free cost effective stand off fixings without the use of additional plugs. The continuous thread in the frame and masonry ensures that the fixture cannot be pulled. Typical applications - Window frames made of wood, plastic and aluminium. Door frames as well as Squared Timbers.

Drill Bits Blacksmith

HSS Blacksmith Drill Bits

Ideal choice for working in alloyed and unalloyed steels up to 1100 N/mm². It has a reduced shank and is therefore also suitable for drilling larger diameter holes in small chucks and hand-held drills.

Bosch Jigsaw Blades

Bosch Jigsaw Blades - Wood Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10200020	T119BO	Softwood (2-15 mm), plywood, chipboard, wood core plywood, fibre boards	Curved	83	56	5
10200030	T111C	Softwood (4-50 mm), chipboard, wood core plywood, fibre boards, quick cut	Straight	100	74	5
10200040	T144D	Softwood (5-50 mm), chipboards, wood core plywood, fibre boards	Straight, Fast	100	74	5
10200050	T244D	Softwood (5-50 mm), chipboards, wood core plywood, fibre boards, especially for curve cuts	Curved, Fast	100	74	5
10200060	T344D	Thick construction timber, softwood (5-100 mm), chipboards, wood core plywood, fibre boards	Straight, Fast	152	126	5
10200070	T101AO	Softwood, plywood, laminated panels (1.5-15 mm), especially for curve cuts	Curved, Clean	83	56	5
10200100	T101B	Softwood, chipboard, wood core plywood, fibre boards (3-30 mm)	Straight, Clean	100	74	5
10200110	T101BR	Softwood, chipboard, wood core plywood, fibre boards (3-30 mm), laminated panels, clean surface	Straight, Clean, Reverse Tooth	100	74	5
10200120	T101D	Softwood, chipboards, wood core plywood, fibre boards (10-45 mm)	Straight, Clean	100	74	5
10200130	T301CD	Softwood, chipboards, wood core plywood, fibre boards (10-65 mm)	Straight, Clean	117	91	5
10200140	T144DP	Softwood, chipboards, wood core plywood, fibre boards (5-50 mm), doors, kitchen worktops (<50mm)	Straight, Fast, Accurate Angles	100	74	5
10200150	T344DP	Thick construction timber, softwood (5-100 mm), chipboards, wood core plywood, fibre boards	Straight, Accurate Angles	152	126	5
10200160	T301BCP	Softwood, chipboards, wood core plywood, fibre boards (3-65 mm), doors, kitchen worktops (<50mm)	Straight, Clean, Accurate Angles	117	91	5
10200161	T308BP	Highest Precision 'Wood 2-Side Clean' tear-free accurate angle cuts. Cuts solid wood up to 50mm	Straight, Accurate Angles, Tear Free, Clean	117	91	5
10200170	T234X	Softwood (3-65 mm), chipboards, wood core plywood, fibre boards	Straight, Clean Through Thick & Thin	117	91	5
10200180	T144DF	Hardwood and softwood (5-50 mm), all types of panels, including laminates	Straight, Fast, Long Life	100	74	5
10200190	T344DF	Thick hardwood and softwood (5-100 mm), all types of panels, including laminates	Straight, Fast, Long Life	152	126	5
10200200	T101AOF	Hardwood, laminated panels/HPL (1.5-15 mm), plywood, especially for curve cuts, no tears	Curved, Clean, Long Life	83	56	3
10200210	T101AIF	Hardwood, laminates, laminated panels/HPL (2-30 mm), no tearing	Straight, Clean, Long Life	100	74	5
10200220	T101BF	Hardwood, laminates, laminated panels/HPL (3-30 mm)	Straight, Clean, Long Life	100	74	5
10200230	T101BRF	Hardwood, laminates, laminated panels (3-30 mm), kitchen worktops (<45mm), clean surface	Straight, Clean, Long Life, Reverse Tooth	100	74	5
10200240	T301CDF	Hardwood and softwood (4-65 mm), laminated panels/HPL	Straight, Clean, Long Life	117	91	5

Bosch Jigsaw Blades - Wood & Metal Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10200250	T345XF	Construction timber with nails (<65mm), wood materials, plastics, sheet metals, pipes/profiles, including aluminium (dia 3-10mm)	Straight, Long Life, Fast Through Thick & Thin	132	106	5

Bosch Jigsaw Blades - Metal & Stainless Steel Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10200260	T118G	Very thin metal plate (0.5 - 1.5 mm)	Straight	92	51	5
10200270	T118A	Thin sheet metals (1-3 mm)	Straight	92	51	5
10200291	T318A	Thin sheet metals (1-3 mm), pipes + profiles, including aluminium (diameter <65mm)	Straight	132	106	5
10200300	T118B	Medium-thick sheet metals (2.5-6 mm)	Straight	92	51	5
10200310	T318B	Medium-thick sheet metals (2.5-6 mm), pipes + profiles, including aluminium (diameter <65mm) cutting at accurate angles	Straight, Accurate Angles	132	106	5
10200320	T118AF	Thin sheet metals, perforated sheet metals (1-3 mm)	Straight, Long Life	92	51	5
10200330	T318AF	Thin sheet metals, perforated sheet metals (1-3 mm), sandwich materials (<65mm), pipes + open profiles, including aluminium (diameter <65mm), glass fibre reinforced plastic/epoxy (<65mm)	Straight, Long Life	132	106	5
10200340	T118EOF	Thin sheet metals, perforated sheet metals (1.5-4 mm), especially for curve cuts	Curved, Long Life	83	57	5
10200350	T118BF	Medium-thick sheet metals, perforated sheet metals (2.5-6 mm)	Straight, Long Life	92	51	5
10200360	T318BF	Medium-thick sheet metals, perforated sheet metals (2.5-6 mm), sandwich materials (<65mm), pipes + open profiles, including aluminium (diameter <65mm), glass fibre reinforced plastic/epoxy (<65mm)	Straight, Long Life	132	106	5
10200370	T123XF	Thin to thick sheet metals (1-8 mm), thin to thick profiles (diameter <100mm)	Fast, Long Life	100	74	5
10200380	T127D	Thin to thick sheet metals (3-15 mm), pipes + profiles (diameter <30mm)	Straight, Fast Cut	100	74	5
10200390	T227D	Thin to thick sheet metals (3-15 mm), pipes + profiles (diameter <30mm), especially for curve cuts	Curved, Fast	100	74	5
10200400	T118AHM	Thin stainless steel sheets (stainless steel) (1.5-3 mm)	Straight, Long Life	83	57	3
10200410	T118EHM	Medium-thick stainless steel sheets (Inox) (2-5 mm)	Straight, Long Life	83	57	3

Bosch Jigsaw Blades - Fibreglass, Plasterboard & Specialised Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10200420	T301CHM	Clean cuts in solid surface plastics, CRP sheets, pipes, profiles.	Straight, Long Life	117	91	3
10200430	T141HM	Glass fibre reinforced plastic (5-20 mm), plasterboard, fibre cement boards (5-50 mm)	Long Life	100	74	3
10200440	T341HM	Glass fibre reinforced plastics (5-50 mm), plasterboard, fibre cement boards (<80 mm)	Long Life	132	106	3
10200450	T130Riff	Soft ceramics, glass fibre reinforced plastic, cast iron (5-15 mm), coarse cut	Coarse	83	57	3
10200470	T101A	Perspex Polycarbonate 2-20mm	Straight, Clean, Long Life	100	74	5
10200480	T113A	Cardboard, polystyrene, carpet, leather, rubber (<50mm)	Soft Materials	100	74	3

VJT Jigsaw Blades

VJT Jigsaw Blades - Wood Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10250010	T119BO	For softwood 2-15mm, plywood, chipboard & wood core plywood	Curve Fine	92	50	5
10250030	T111C	For softwood 4-50mm, chipboard, wood core plywood & fibre boards	Straight Coarse	100	74	5
10250040	T101B	For softwood, chipboard, wood core plywood, fibre boards 3-30mm & plastics/epoxy diam. <30mm	Straight Fine	100	74	5
10250050	T101BR	For softwood, chipboard, wood core plywood, fibre boards 3-30mm & laminated panels	Straight Fine	100	74	5
10250060	T101D	For softwood, chipboards, wood core plywood, & fibre boards 10-45mm	Straight Fine	100	74	5
10250070	T301CD	For softwood, chipboards, wood core plywood, & fibre boards 10-65mm	Straight Fine	117	94	5
10250080	T144D	For softwood 5-50mm, chipboards, wood core plywood & fibre boards	Straight Coarse	100	74	5
10250090	T344D	For softwood panels 5-100mm, coarse wood construction timbers, chipboards wood core plywood & fibre board	Straight Coarse	152	124	5
10250100	T101AO	For softwood, plywood & laminated panels 1.5-15mm	Curve Fine	92	50	5
10250110	T244D	For soft wood 5-50mm, chipboard, For soft wood 5-50mm, chipboard,	Curve Fine	100	74	5
10250120	T144DP	For softwood, chipboards, wood core plywood, fibre boards 5-50mm, doors & kitchen worktops (<50mm)	Straight Coarse	100	74	5
10250130	T344DP	For thick construction timber, softwood 5-100mm, chipboards, wood core plywood & fibre boards	Straight Coarse	152	124	5
10250140	T301BCP	For softwoods, chipboards, wood core plyboards 3-65mm & doors, kitchen worktops <50mm	Straight Fine	117	89	5

VJT Jigsaw Blades - Wood Cut (cont'd)

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10250150	T234X	For softwood 3-65mm, chipboards, wood core plywood & fibre boards	Straight Fine	117	91	5
10250160	T144DF	For hardwood and softwood 5-50mm & all types of panels including laminates	Straight Coarse	100	74	5
10250170	T344DF	For thick hardwood and softwood 5-100mm & all types of panels including laminates	Straight Coarse	152	124	5
10250180	T101AOF	For hardwood, laminated panels/HPL 1.5-15mm & plywood	Curve Fine	92	50	5
10250190	T101AIF	For hardwood, laminated panels/HPL 2-30mm & glass fibre reinforced plastic/epoxy diameter <30mm	Straight Fine	100	74	5
10250200	T101BF	For hardwood, laminated panels/HPL 3-30mm & glass fibre reinforced plastic/epoxy diameter <30mm	Straight Fine	100	74	5
10250210	T101BRF	For laminated panels 3-30mm & kitchen worktops 3-45mm	Straight Fine	100	74	5
10250220	T301CDF	For hardwood and softwoods 4-65mm & laminated panels/HPL	Straight Fine	117	89	5
10250230	T345XF	For construction timber with nails <65mm, wooden materials, plastics, sheet metals & pipes/ profiles incl. aluminium diam. 3-10mm	Straight Coarse	132	106	5

VJT Jigsaw Blades - Metal & Stainless Steel Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10250240	T118G	For very thin metal plate 0.5-1.5mm	Straight Fine	92	50	5
10250250	T118A	For thin sheet metals 1-3mm	Straight Fine	92	50	5
10250260	T118B	For medium-thick sheet metal 5 2.5-6.0mm	Straight Fine	92	50	5
10250270	T118AF	For thin sheet metals 1-3mm	Straight Fine	92	65	5
10250280	T118BF	For medium-thick sheet metals 2.5-6.0mm	Straight Fine	92	65	5
10250290	T318A	For thin sheet metals 1-3mm, pipes & profiles, incl. aluminium diameter <65mm	Straight Fine	132	104	5
10250300	T318AF	For thin sheet metals 1-3mm, sandwich materials, pipes & open profiles, including aluminium diameter <65mm	Straight Fine	132	104	5
10250310	T318B	For medium-thick sheet metals 2.5-6mm, pipes & profiles, incl aluminium diameter <65mm	Straight Fine	132	104	5
10250320	T318BF	For medium thick sheet metals 2.5-6mm, pipes and profiles including aluminium diameter <65mm, sandwich materials <65mm & glass fibre reinforced plastic/epoxy <65mm	Straight Fine	132	104	5
10250330	T127D	For thin to thick Aluminium 3-15mm, pipes & profiles diam. <30mm	Straight Fine	100	74	5
10250335	T218A	For thin sheet metals 1-3mm	Curve Fine	92	66	5
10250340	T227D	For thin to thick Aluminium 3-15mm, pipes & profiles diam. <30mm	Curve Fine	100	74	5
10250350	T123X	For thin to thick sheet metals 1.5-10mm, pipes & profiles, including aluminium diameter <30mm	Straight Fine	100	74	5
10250410	MA118B	For medium-thick sheet metals 2.5-6mm	Straight	92	59	5
10250420	T118AHM	For Stainless Steel TC 1.5-3mm	Straight	92	50	5
10250430	T118EHM	For Stainless Steel TC 2-5mm	Straight	92	50	5

VJT Jigsaw Blades - Plasterboard & Specialised Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Length of teeth (mm)	Pack Quantity
10250360	T141HM	For glass fibre reinforced plastic/ epoxy 5-20mm & plasterboard, fibre cement boards 5-50mm	Straight Coarse	100	74	3
10250370	T341HM	For glass fibre reinforced plastics 5-50mm, plasterboard & fibre cement boards <80mm	Straight Coarse	132	106	3
10250380	T130RIFF	For soft ceramic wall tiles & cast iron 5-15mm, coarse cut	Straight Coarse	83	59	3
10250390	T150RIFF	For soft ceramic wall tiles & cast iron 5-10mm, fine cut	Straight Coarse	83	59	3
10250400	T101A	For perspex & polycarbonate 2-20mm	Straight Coarse	100	74	5

Bosch Sabre Saw Blades

Bosch Sabre Saw Blades - Metal & Stainless Steel Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10300010	S918AF	Thin sheet metals (1-3 mm), fine, closed pipes/profiles (diameter <100 mm)	Basic For Metal	150	100	1-3	5
10300030	S522AF	Thin sheet metals (0.7-3 mm), effortless, fine cut	Comfort, Long Life	100		0.7-3	5
10300040	S922AF	Thin sheet metals (0.7-2 mm), fine pipes/profiles (diameter <100 mm), effortless, fine cut	Comfort, Long Life	150	100	0.7-2	5
10300050	S1122AF	Thin sheet metals (0.7-3 mm), fine pipes/profiles (diameter <175 mm), effortless, fine cut, flexible flush cut	Comfort, Long Life	225	175	0.7-3	5
10300060	S522EF	Thin sheet metals (1.5-4 mm)	Flexible, Long Life	100		1.5-4	5
10300070	S922EF	Thin sheet metals (1.5-4 mm), pipes/profiles (diameter <100 mm)	Flexible, Long Life	150	100	1.5-4	5
10300080	S1122EF	Thin sheet metals (1.5-4 mm), pipes/profiles (diameter <175 mm), flexible flush cut	Flexible, Long Life	225	175	1.5-4	5
10300090	S422BF	Medium-thick sheet metals (1.5-6 mm), especially for curve cuts	Curve, Long Life	100		1.5-6	5
10300100	S522BF	Thick sheet metals (3-8 mm), quick cut	Fast, Long Life	100		3-8	5
10300110	S922BF	Thick sheet metals (3-8 mm), solid pipes/profiles (diameter <100 mm), quick cut	Fast, Long Life	150	100	3-8	5
10300120	S1122BF	Thick sheet metals (3-8 mm), solid pipes/profiles (diameter <175 mm), flexible flush cut, quick cut	Flexible, FlushFast, Long Life	225	175	3-8	5
10300130	S123XF	Thin to thick sheet metals (1-8 mm), thin to thick profiles (diameter <100 mm)	Fast, Long Life	150	100	1-8	5
10300160	S1025VF	Medium-thick to thick sheet metals (2-10 mm), thin-walled and thick-walled pipes and profiles (<150 mm)	Comfort, Demolition	200	150	2-10	5

Bosch Sabre Saw Blades - Metal & Stainless Steel Cut (cont'd)

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10300170	S920CF	Thick sheet metal (4-12 mm), thick-walled, solid pipes and profiles (<100 mm). Ideal for pipe cutting device, for rescue/demolition work. Powerful, coarse cut	Power, Demolition	150	100	4-12	5
10300180	S1120CF	Thick sheet metals (4-12 mm), thick-walled, solid pipes and profiles (<175 mm). Ideal for pipe cutting device, for rescue/demolition work. Powerful, coarse cut	Power, Demolition, Long Life	225	175	4-12	5
10300181	S1130CF	Thick sheet metals (4-12 mm), thick-walled, solid pipes and profiles (<175 mm). Ideal for pipe cutting device, for rescue/demolition work. Powerful, coarse cut	Power, Demolition, Long Life	225	175	4-12	5
10300190	S922HF	Wood with nails/metal (<100 mm), sheet metals, pipes, aluminium profiles (3-12 mm), pallets	Long Life	150	100	3-12	5
10300400	S522EHM	Stainless steel sheets (2-4 mm), stainless steel profiles (diameter <50 mm), glass fibre reinforced plastic/epoxy (<50 mm).	Long Life	115		2-4	2
10300470	P-04911	Steel, stainless steel, alloys, cast iron. Wood with nails, pallet cutting, steel pipe 2.5-3.5mm.	Fast	150		2.5-3.5	5
10300480	S930CF	Thick sheet metal (4-12 mm), thick-walled, solid pipes and profiles (<100 mm). Ideal for pipe cutting device, for rescue/demolition work. Powerful, coarse cut	Power Cut, Long Life, Demolition	150	100	4-12	5
10300491	S927BEF	Medium-thick to thick sheet metals (2-6 mm), thin-walled closed and open profiles and pipes (<100 mm). Fine, precise cuts at accurate angles.	Comfort, Long Life, Demolition	150	100	2-6	5

Bosch Sabre Saw Blades - Wood & Metal Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10300210	S922VF	Wood with nails/metal (<100 mm), sheet metals, pipes, aluminium profiles (3-10 mm), glass fibre reinforced plastic/epoxy (<100 mm)	Comfort, Long Life	150	100	3-10	5
10300200	S1122HF	For pallet repair, wood with nails/metal (<175 mm), sheet metals, pipes, aluminium profiles (3-12 mm), flexible flush cut	Long Life, Flexible	225	175	3-12	5
10300220	S1122VF	Wood with nails/metal (<175 mm), sheet metals, aluminium profiles (3-10 mm), glass fibre reinforced plastic/epoxy (<175 mm), flexible flush cut	Comfort, Long Life, Flexible	225	175	3-10	5
10300230	S1222VF	Wood with nails/metal (<250 mm), sheet metals, aluminium profiles (3-10 mm), glass fibre reinforced plastic/epoxy (<250 mm), flexible flush cut	Comfort, Long Life, Flexible	300	250	3-10	5
10300240	S3456XF	Wood with nails/metal, chipboard (<150 mm), sheet metals, aluminium profiles (3-18 mm), glass fibre reinforced plastic/epoxy (<150 mm)	Power, Fast, Long Life	200	150	3-18	5

Bosch Sabre Saw Blades - Wood & Metal Cut (cont'd)

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10300250	S611DF	Wood with nails/metal, chipboard (<100 mm), plastic profiles (<100 mm), plastics/glass fibre reinforced plastic, solid (<50 mm), window frames: wood + metal, especially for plunge cuts	Fast, Long Life	150	100		5
10300260	S711DF	Wood with nails/metal, chipboard (<100 mm), plastics/glass fibre reinforced plastic, solid (<50 mm), especially for curve cuts	Curved, Fast, Long Life	150	100		5
10300270	S1111DF	Wood with nails/metal, chipboard (<175 mm), plastic profiles (diameter <175 mm), plastics/glass fibre reinforced plastic, solid (<50 mm)	Fast, Long Life	225	175		5
10300280	S1411DF	Wood with nails/metal, chipboard (<250 mm), glass fibre reinforced plastic/epoxy (<60 mm)	Fast, Long Life	300	250		5
10300290	S610VF	Wood with nails/metal, wood, chipboard (<100 mm), glass fibre reinforced plastic/epoxy, solid (<50 mm), wall cutouts: wood+metal (<100 mm), for rescue/demolition work	Power Cut, Demolition	150	100		5
10300300	S1110VF	Wood with nails/metal, wood, chipboard (<100 mm), glass fibre reinforced plastic/epoxy, solid (<50 mm), wall cutouts: wood+metal (<100 mm), for rescue/demolition work	Power, Long Life, Demolition	225	175		5

Bosch Sabre Saw Blades - Wood Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10300310	S617K	Coarse wood, free of nails (<100 mm), pruning green wood (diameter <100 mm), especially for curve cuts/plunge cuts	Curved	150	100		5
10300320	S1617K	Coarse wood, free of nails (<250 mm), pruning green wood (diameter <250 mm)	Basic for Wood	300	250		5
10300340	S2345X	Construction wood (<150 mm), boards: chipboard, MDF (6-60 mm), plywood, plastic (<150 mm), wooden wall (<150 mm)	Comfort, Clean	200	150		5
10300350	S644D	Construction wood (<100 mm), wooden wall (<100 mm), boards: chipboard, MDF (6-60 mm), plywood, plastic (<100 mm), especially for plunge cuts	Clean	150	100		5
10300360	S1531L	Coarse wood, free of nails (<190 mm), pruning green wood (diameter <190 mm), firewood (diameter <190 mm)	Fast	240	190		5
10300370	S1542K	Firewood, damp wood (diameter <190 mm)	Fast, Power	240	190		5

VJT Sabre Saw Blades

Sabre Saw Blades - Metal & Stainless Steel Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10350010	S918AF	For thin sheet metals 1-3mm & fine closed pipes/profiles diameter	Straight Fine	150	100	1-3	5
10350020	S922AF	For thin sheet metals 0.7-3mm & fine pipes/profiles diameter <100mm	Straight Fine	150	100	0.7 - 3	5
10350030	S1122AF	For metal plates 0.7-3mm & fine pipes/profiles diameter <175mm	Straight, Fine and Flush Cut	225	175	0.7 - 3	5
10350040	S922EF	For thin sheet metals 1.5-4mm & pipes/profiles diameter <100mm	Straight Fine	150	100	1.5 - 4	5
10350050	S1122EF	For thin sheet metals 1.5-4mm & pipes/profiles diameter <175mm	Straight, Fine and Flush Cut	225	175	1.5 - 4	5
10350060	S918BF	For medium-thick sheet metals 2-8mm & closed pipes/profiles diameter <100mm	Straight Fine	150	100	2 - 8	5
10350070	S922BF	For metal plate 3-8mm & pipes diameter <100mm	Fast Cut	150	100	3 - 8	5
10350080	S1025BF	For medium-thick to thick sheet metal 2-8mm & solid pipes/profiles diam. 10-150mm	Demolition and rescue work.	200	150	2 - 8	5
10350090	S1122BF	For thick sheet metals 3-8mm & solid pipes/profiles diameter <175mm	Fast and Flush Cut	225	175	3 - 8	5
10350100	S1025HF	For thick metal plate 3-12mm & solid pipes/profiles diameter 10-150mm	Demolition and rescue work.	200	150	3 - 12	5
10350110	S1025VF	For medium-thick to thick sheet metal 2-10mm & solid pipes/profiles diam. <150mm	Accurate angled cut	225	150	2 - 10	5

Sabre Saw Blades - Metal & Stainless Steel Cut (cont'd)

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10350120	S920CF	For thick sheet metal 4-12mm, thick walled pipes & profiles <100mm; ideal for rescue/demolition work	Straight Coarse, Accurate Angled Cut & Rescue Work	150	100	4 - 12	5
10350130	S1120CF	For thick sheet metal 4-12mm pipes, solid profiles <170mm; suitable for rescue/demolition work	Straight Coarse, Accurate Angled Cut & Rescue Work	225	170	4 - 10	5
10350140	S522AF	For thin sheet metal 0.7-3mm, fine cut	Straight Fine	100		0.7 - 3	5
10350150	S522EF	For thin sheet metal 1.5-4mm	Straight Fine	100		1.5 - 4	5
10350160	S422BF	For medium-thick sheet metal 5 1.5-6mm	Curve	100		1.5 - 6	5
10350170	S522BF	For sheet metals 3-8mm	Fast Cut	100		3 - 8	5
10350180	S123XF	For thin to thick sheet metals 1-8mm & thin to thick profiles diameter <100mm	Straight Fine, Thin and Thick	150	100	1 - 8	5
10350430	S926BEF	Sheet metals (3-8 mm), thin-walled closed and open profiles and pipes (<100 mm)	Fine Cut	150	100	3 - 8	5
10350440	S930CF	For sheet metals 4-12mm, solid pipes & profiles <100mm	Demolition and Rescue Work	150	100	4 - 12	5

VJT Sabre Saw Blades - Wood & Metal Cut

Item Number	Blade Ref	Item Description	Type of Cut	Overall Length (mm)	Recommended Cut Capacity (mm)	Recommended Material Thickness (mm)	Pack Quantity
10350190	S922HF	For pallets, wood with nails/metal <100mm, sheet metals pipes, aluminium profiles 3-12mm	Straight Fine	150	100	3 - 12	5

		20550150	300/20	1

Diamond Blades - Hard Materials

Diamond Blade - Hard Materials

Classic Range VMC	Item Description	Item Number	Size (mm)	Pack Quantity
	A segmented hard materials blade making use of Turbo Segments. This blade has proven itself in the Civil Engineering environment giving excellent value in terms of cost per cut.	20550210	230/22	1
		20550220	300/20	1

Diamond Blade - Hard Materials

Premier Range VMP	Item Description	Item Number	Size (mm)	Pack Quantity
	A segmented hard materials blade making use of Turbo Segments. Active cooling provides increased performance whilst maintaining good value in terms of cost per cut.	20550310	125/22	1
		20550320	230/22	1
		20550330	300/20	1

		20550360	450/25	1

Diamond Blade - Hard Materials

Specialist Range VMX	Item Description	Item Number	Size (mm)	Pack Quantity
	Arguably one of the best performing hard material blades in its class. Using increased segments, enhanced diamond content and active cooling to give additional life and speed of cut.	20550400	150/22	1
		20550410	230/22	1
		20550420	300/20	1
		20550430	350/25	1
		20550440	450/25	1

Diamond Blades - Multi-Purpose

Diamond Blade - Multi-Purpose

Classic Range VPP	Item Description	Item Number	Size (mm)	Pack Quantity
	A multi-purpose blade with protection against aggressive applications. Active cooling to prevent glazing in hard materials and a unique narrow gullet for enhanced debris removal. State of the art technology enables this blade to perform over the widest range of materials.	20550510	230/22	1
		20550520	300/20	1
		20550530	350/25	1
		20550540	450/25	1

Diamond Blade - Multi-Purpose

Premier Range VPX	Item Description	Item Number	Size (mm)	Pack Quantity
	A multi-purpose blade with protection against aggressive applications. Active cooling to prevent glazing in hard materials. Unique narrow gullet for enhanced debris removal. State of the art technology enables this blade to perform over the widest range of materials. An enhanced segment feature provides a much longer life as well as the best value per cut.	20550610	300/20	1
		20550620	350/25	1
		20550630	450/25	1

Diamond Blades - Abrasive Materials / Asphalt

Diamond Blade - Abrasive Materials / Asphalt

Classic Range VAC	Item Description	Item Number	Size (mm)	Pack Quantity
	Using a traditional format with deep draft segments to prevent under-cutting, this is the ideal blade in this class for the cost conscious user.	20550710	300/20	1
		20550720	350/25	1

Diamond Blade - Abrasive Materials / Asphalt

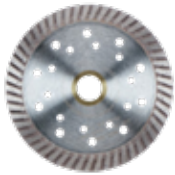

Premier Range VAP	Item Description	Item Number	Size (mm)	Pack Quantity
	With an increased quantity of segments, this blades proven longevity in the harshest of environments.	20550810	115/22	1
		20550820	125/22	1
		20550830	230/22	1
		20550840	300/20	1
		20550850	350/25	1
		20550860	450/25	1

Diamond Blade - Abrasive Materials / Asphalt

Specialist Range VAX	Item Description	Item Number	Size (mm)	Pack Quantity
	Using all the elements of the premier range product, but with enhanced diamond content, this blade provides increased meterage and speed.	20550910	450/25	1

Diamond Blade - Specialist

Diamond Blade - Specialist

Hard Materials Premier
Continuous Rim Turbo
VMPT

Item Description

All the attributes of the VMP hard materials blade but in a continuous rim format. When speed of cut is the prime requirement, this blade is an obvious choice.

Grinding Heads

Grinding Head

Grinding Head VCTP	Item Description	Item Number	Size (mm)	Pack Quantity
	A general masonry grinding wheel designed for use with an angle grinder. An excellent choice when use on a variety of materials is required such as concrete, brick, blocks, and stone. Material is removed easily and this classic design offers exceptional performance and wear.	20551510	100/M14	1

Grinding Head

Grinding Head Continuous Rim VGCM	Item Description	Item Number	Size (mm)	Pack Quantity
	Designed with a special fine diamond grit content for use when fine concrete planing is required.	20551550	110/15	1

Grinding Head

Grinding Head VCSP	Item Description	Item Number	Size (mm)	Pack Quantity
	A concrete/hard materials grinding wheel designed for use with angle grinders. Performs well when used on harder materials such as concrete, granite and limestone. Excellent for cleaning and finishing work.	20551540	110 Bush 15 Bore 22.23	1

Grinding Head

Grinding Head VCDP	Item Description	Item Number	Size (mm)	Pack Quantity

19300187	Black	310	12

Polyurethane Sealants

Item Number	Item Description	Colour	Size (ml)	Pack Quantity
19300060	Everbuild Puraflex 25 A one part low modulus building sealant based on polyurethane technology. Conforms ISO11600 25LM and is CE.	White	300	12
19300080	Everbuild Puraflex 25	Brown	300	12
19300070	Akfix 625 Construction Polyurethane Sealant A one-component, low-modulus polyurethane sealant that cures on exposure to atmospheric humidity. It possesses excellent adhesion to all typical construction materials such as cement based materials, brick, ceramic, glass, wood, galvanized and painted sheet iron and various plastics.	Grey	310	12
19300090	Akfix 625 Construction Polyurethane Sealant	Black	310	12
19400280	Soudaflex 40FC Polyurethane sealant adhesive A one part, moisture curing, elastic joint sealant and multipurpose adhesive based on polyurethane. Suitable for indoor and outdoor applications.	White	310	12

Polyurethane Sealants (cont'd)

Item Number	Item Description	Colour	Size (ml)	Pack Quantity
19300091	Soudaflex 40FC Polyurethane sealant adhesive	Black	310	12
19300140	Sikaflex 11FC A high quality, neutral, elastic, 1-component construction joint and adhesive sealant based on polyurethane.	Black	600 (Foil)	12

Butyrub Butyle Sealant

Butyrub is a high quality, permanent plastic one-component sealant based on polybutene.

Item Number	Colour	Size (ml)	Pack Quantity
19300030	Grey	310	15
19300040	Black	310	15

Everbuild Trade Roof & Gutter Sealant

Everbuild® Roof &Gutter Sealant is a premium quality butyl based sealant and adhesive that provides instant and permanent weather-proofing to a wide variety of roofing applications. Adheres to most common roofing materials such as bitumen, asphalt, felt, metals and wood.

Item Number	Colour	Size (ml)	Pack Quantity
19300110	Black	300	12

Soudalead PB

Soudalead PB is a low modulus neutral cure silicone sealant and filler for use on lead and other metals. Permanent colour and UV resistant. Remains flexible once fully cured. Very good adhesion on many metals. Compatible with all lead types.

Item Number	Colour	Size (ml)	Pack Quantity
19300120	Lead Grey	300	25

Sikabond TF Plus N Sausage

SikaBond® TF plus N is a 1-component, PU-based adhesive for the SikaMembran® facade membrane system, which combines high mechanical strength with the necessary elasticity to cope with high movements in facades. SikaBond® TF plus N adheres excellent to a wide range of substrates.

Item Number	Colour	Size (ml)	Pack Quantity
19300320	Black	600 (foil)	20

Sikasil WS605S High Performance Weather Sealant

Sikasil® WS-605 S is a durable, neutral-curing silicone sealant with a high movement capability and excellent adhesion to a wide range of substrates. Non-streaking properties on nonporous substrates and non-staining properties on porous substrates. It is particularly suited as a weather seal for structural glazing, curtain walling and windows.

Item Number	Colour	Size (ml)	Pack Quantity
19300330	Black	600	20

Arbokol 682H - Gun Grade Sealant for Balustrade Installation

Grade is a Two-Part Epoxy Polysulphide Sealant, which when the components are mixed together, cures to form an extremely tough sealant with a small degree of movement accommodation. For all types of installations of glass balustrade where a sealant is required.

Item Number	Item Description	Pack Quantity
19800120	Arbokol 682H Grey 1.2Ltr	6
19800130	Empty Cartridge To Suit Arbokol 682H	1
19800140	Nozzle For Cartridge To Suit Arbokol 682H	1
19800150	Plunger For Cartridge To Suit Arbokol 682H	1

Adhesives

CT1 Power Grab N Bond

Power Grab 'n' Bond is a unique solvent free construction adhesive with an exceptionally high initial grab followed by an incredible structural bond. It can be applied to Concrete, Most Stones, Ceramic, Marble, Wood, Gypsum Board, Metals, Lead, Glass, Mirror, Plastics (excluding PP, PE and PTFE) and any combination of the above without any additional fixings.

Item Number	Item Description	Pack Quantity
19300270	CT1 Power Grab N Bond	12

CT1 MultiSolve

Fast multipurpose solvent degreaser that leaves no oily film. For degreasing and cleaning mechanical parts, motor, brakes, suspension. Cleaning tools and workshop equipment - attacks no plastics. Removal of stickers or masking tape adhesive residues. Removal of previous grease layers before re-lubricating, e.g. door hinges. Multisolve does not corrode the paint.

Foams

Fire Rated PU Construction Foam

FF197 is a modified, single component, fire rated polyurethane foam. It cures to form a semi-rigid foam that is able to accommodate some degree of movement of the joint. FF197 is perfect for sealing gaps found around fire rated doors, and can be easily applied with a straw nozzle or professional foam gun.

Provides up to 240 minutes fire protection.

Item Number	Item Description	Size (ml)	Pack Quantity
19500180	NULLFIRE FF197 BI Dual Can Foam FR (for use with Gun or Nozzles)	750	12

Blue60 Foam & Packers

PU Foam is a single component, moisture curing, self expanding, ready to use polyurethane foam with propellants which are completely harmless to the ozone layer. It has a fire rating of up to 60 minutes in Timber Doorsets configuration, when used in conjunction with Blue60 fire rated packers, that are available in 1, 3 and 5mm thicknesses.

Item Number	Item Description	Size (ml)	Pack Quantity
19500280	Blue60 Foam	750ml	12
01101000	Blue60 Fire Rated Packers 1mm	1mm x 15mm x 100mm Green	100
01101010	Blue60 Fire Rated Packers 3mm	3mm x 15mm x 100mm White	100
01101020	Blue60 Fire Rated Packers 5mm	5mm x 15mm x 100mm Blue	100

High Yield Foam B3

VJT High Yield Foam B3 is a rapid curing, high yield, one component gun grade expanding polyurethane foam that is suitable for general gap filling, bonding and insulation applications.

Item Number	Item Description	Size (ml)	Pack Quantity
19500060	VJT Dual Can Foam B3 (for use with Gun or Nozzles)	540	12

Other Construction Foams

Item Number	Item Description	Size (ml)	Pack Quantity
19400430	Everbuild Gun Grade Pinkgrip Dry Fix Foam A revolutionary new type of fast curing adhesive foam that has been specially developed for the rapid installation of Plasterboard.	750	12
19400490	Illbruck PU700 Multi-Use Construction Foam Adhesive Incredibly strong adhesive for a wide variety of applications - wood, bricks, steel & more. Rapid curing and 12 times more coverage than a 310 ml cartridge. Suitable for indoor or outdoor use.	750	12
19500200	Airseal Expanding Foam Filler (Illbruck FM330) Ideal for use as an air tight gap filler for general construction joints. It is suitable for applications such as sealing floor to wall and wall to ceiling joints and pipe & service penetrations. The movement accommodation factor (MAF) of 35% ensures that the integrity of the seal is maintained in the event of movement and settlement.	750	12

Foam Cleaners

Item Number	Item Description	Size (ml)	Pack Quantity
19500071	Soudal Trade Foam Cleaner Used for the cleaning of PU Foam applicator guns. Gun applied PU Foam valves and uncured PU Foam can also be quickly and easily removed with the attachable spray nozzle.	500	12
19500070	Trade Foam Cleaner Removes fresh PU foam and cleans the PU foam gun adapter after the application. Cleans surfaces, clothes, window&door frames and prevents the foam cure in the gun adapter.	500	12

Foam Gun Applicators & Nozzles

Item Number	Item Description	Pack Quantity
19600010	Gun Foam Applicator - Steel	1
19600020	Gun Foam Applicator - Plastic	1
19500250	Illbruck 2 in 1 Dual Can Foam Hand Nozzle More precise application and greater efficiency than a standard nozzle and therefore less waste, 360° application possible.	50

Intumescent Sealants & Silicones

Acoustic Intumescent Mastic & Sealants

Item Number	Item Description	Colour	Size (ml)	Pack Quantity
19500090	Fireshield Acoustic Intumescent FR Acrylic Fireshield Acoustic Intumescent FR Acrylic forms a fire and smoke seal in joints up to 35mm wide without slumping. Available in 310, 600 & 900ml.	White	310	25
19500125	Fireshield Acoustic Intumescent FR Acrylic	White	600 (Foil)	12
19500190	Fireshield Acoustic Intumescent FR Acrylic	White	900 (Jumbo Cartridge)	12
19500340	Everbuild Fire Mate Intumescent Sealant A four hour rated, one part, emulsion acrylic based, intumescent Acoustic sealant that gives a firm yet flexible seal to joints in a variety of fire rated structures.	White	295	25
19500192	Everbuild EVERFLEX AC95 Intumescent Sealant High strength, permanently flexible intumescent acoustic sealant and adhesive specifically formulated for sealing and bonding plasterboard and other Kraft lined insulation boards, where a fire rated seal of up to 4 hours is required.	White	900 (Jumbo Cartridge)	9

Acoustic Intumescent Mastic & Sealants (cont'd)

Item Number	Item Description	Colour	Size (ml)	Pack Quantity
30000010	FIAM 310 Intumescent Acoustic Mastic 53011 FIAM is a one-part water based acrylic emulsion. It has a fire resistance of up to 5 hours when used in construction joints and services in both vertical and horizontal applications. Available in 310 & 600ml.	White	310	25
30000020	FIAM 600 Intumescent Acoustic Mastic 56006	White	600	25
12950390	Knauf Intumescent and Acoustic Mastic Rapid curing, water based acrylic expanding fire resistant mastic used for linear joint sealing. The mastic is blue coloured for ease of identification/inspection.	Blue	600	12
19500290	Rockwool FirePro Acoustic Intumescent Sealant 212902 A revolutionary new type of fast curing adhesive foam that has been specially developed for the rapid installation of Plasterboard.	Off White	310	25
19500300	Arbo XL 1075 Intumescent Mastic One part Acoustic, Fire Resistant, Water Based Acrylic Sealant. When subject to flame, Arbo XL1075 will intumesce, blocking the passage of fire and smoke.	White	380	25
19500120	Nullifire FS703 Fire Resistant Silicone Sealant Low modulus, neutral cure silicone sealant. Suitable for use within linear gap seals in both walls and floors, FS703 will reinstate compartment lines where discontinuities, breaches or movement gaps have been left. Up to 4 hours fire resistance.	White	310	12
19200270	DOWSIL™ FIRESTOP 700 Sealant Fire-rated one-part silicone sealant for interior and exterior linear joints and penetration seals.	Black	310	12
19200280	DOWSIL™ FIRESTOP 700 Sealant Fire-rated one-part silicone sealant for interior and exterior linear joints and penetration seals.	White	310	12

Fillers

Wood Filler Plastic Wood Tube Natural 20g

Rustins Plastic Wood Tube is waterproof for inside and outside use. Can be cut, filed, drilled, sanded and planed.

Item Number	Colour	Size	Pack Quantity
19700010	Natural	20g	1
19700020	Teak	20g	1

Timberfill 2 Part Wood Filler

Fast-drying exterior and interior wood filler. The filler has exceptional strength and flexibility and may be drilled, nailed, planed or carved once dry.

Item Number	Item Description	Pack Quantity
19700120	Timberfill Pine 2 Part Wood Filler 500g	6
19700130	Timberfill White 2 Part Wood Filler 500g	6
19700040	Timberfill Pine 2 Part Wood Filler 1.4Kg	1

Lindapter Hollo-bolts

We only stock Hexagonal head - other types available on request

Advantages

- Fast installation
- Range of head styles
- Available in stainless steel
- Special collapse feature on M16 and M20
- Lower installation costs over traditional methods

Typical applications

- Primary Steelwork
- Cladding
- Secondary Steelwork
- Electrical Equipment
- Mechanical Handling

Equipment

- Blast Walling
- Lifting Gear
- HVAC Equipment
- Fire Protection Systems
- Wall Ties

Blind Bolts

Blind Bolt Bzp

A simple yet ingenious high-performance cavity fixing, widely used in the construction industry, covering horizontal and vertical applications.

- Heavy duty Blind Bolt – the ideal fixing solution between heavy weight steel sections.
- Blind Bolts can be used in a wide range of fixing applications, ideally suited for safe, quick and easy installation, Blind Bolts save time and money.
- Blind Bolt's simplicity makes it the ideal choice where access is restricted, or when working at height.
- 8.8 high tensile steel.
- Geomet 500B finish – a zinc flake anticorrosive coating, withstanding a 1,000 hour salt spray test.

Fast becoming the established alternative to welding when dealing with steelwork fabrication involving blind box sections. Its many advantages include speed of application, ease of use, no special skill, tools or equipment required and the reassurance to know that when correctly fitted the Peg Anchor Molabolt is at least as strong as a standard bolt.

Respiratory Protection

FFP1, FFP2 AND FFP3 Face Masks

FFP1 - Common applications are environments with low levels of dust that is not harmful to health.

FFP2 - Common applications include handling soft wood, metal, plastics (not PVC) and oil mist.

FFP3 - Typical applications for an FFP3 mask are for example handling heavy metals, hardwood, brake dust, radioactive substances, pathogens such as viruses, bacteria and fungal spores as well as stainless steel welding.

Sub-frame Systems

The ever-evolving face of architecture demands a supporting cast of rainscreen framing systems that can deliver on energy, sound, building protection and budgetary requirements, without inhibiting design.

We supply a range of ventilated façade support systems and components for all façade panel types.

fischer ACT System

The fischer ACT (Advanced Curtain Wall Technique System), offers architects and specifiers an innovative, high quality, all inclusive system for fixing ventilated claddings.

The complete service from a single source, provides extensive scope for architectural design and free positioning of the anchor anywhere on the rear side of the panel, as well as an easy replacement of all or individual panels. Reveal panels can also be attached with ease and in various ways. ACT's aesthetic highlight is its undercut technology combined with the FZP 11 fischer zykon panel anchor, which ensures that there are no visible fixing elements at the joint.

Why choose fischer ACT?

- The system offers effortless and cost-efficient design of attractive, complex façades.
- The FZP II - fischer zykon panel anchor is undercut and therefore a stress-free fixing system that is installed into pre-drilled undercut holes.
- The technology used offers several times higher ultimate loads than conventional fixings.
- Anchor positioning can be optimised and the bending moment within the panel is reduced by about 50% when compared to traditional systems. This allows reduced panel thickness and larger panel sizes. In addition, the varied panel thickness can be compensated using stand-off anchor types.
- ACT extends the options and reduces the costs.
- The ACT System technology perfectly combines panel anchors, individual substructures and sophisticated drilling technology, resulting in fast and simple construction that isn't dependent on weather conditions.
- Reduced construction time and costs.

The fischer ACT System comprises two solutions:

1. SystemOne Light - Designed for Lightweight Façade Panels

SystemOne Light is an efficient solution when it comes to installing ventilated claddings made of lightweight façade panels. The rail-based system also offers all the advantages that make SystemOne unique.

2. SystemOne - fischer's Framework Substructure

SystemOne is an integral part of ACT system technology. It is designed for high loads, for large-size, heavy, natural stone panels, and for bridging non-bearing structural elements. SystemOne reduces on-site installation times and noise, for example during renovation works, and makes replacing panels easier.

Downer - BBA Certified Helping Hand Framing Systems

Our range of fully engineered, BBA certified Downer and Original Helping Hand framing solutions will deliver on these and meet the differing needs on all types of projects.

Downer DCS021 Omega and Zed

A cost-effective alternative to timber battens, this aluminium framing system can be attached directly to the substrate. In sizes 25mm and 40mm the non-combustible framework can be installed in a single layer and cross battened layer formats.

Downer DCS031 The original Helping Hands System®

Cavity depth range: 49mm to 447mm

A cost-effective alternative to timber battens, this aluminium framing system can be attached directly to the substrate. In sizes 25mm and 40mm the non-combustible framework can be installed in a single layer and cross battened layer formats.

Downer DCS041 Floor Spanning

Cavity depth range: 93mm to 220mm

Specifically designed to be fixed to floor slabs, the high strength adjustable support system is capable of spanning storey heights without the need to introduce intermediate fixings. Due to the enhanced high wind resistance, this application is ideal for multi-storey buildings.

Downer DCS002 & DCS004 Secret fix cladding

Cavity depth range: 49mm to 447mm

For use where specifications dictate a smooth facade unobstructed by visible fixings. Panels hangers fixed to the rear face of the panels hook on to horizontal cladding rails, which in turn may be integrated with one of our vertical carrier rail systems Downer DCS 021, 031 & 041.

The Perfect Colour Match

Part of the VJ Technology Group, Mainline Products is a market leader and international supplier of high-quality fasteners, profiles and accessories to the rainscreen façade industry.

With over 30 years at the forefront of innovation, Mainline Products has become a worldwide favourite for the supply of manufacturer-approved fasteners for many leading cladding manufacturers, thanks to a unique colour-matching service.

Colour Matching

Mainline Products are the only supplier in the industry able to colour match to any manufacturer's panels, including RAL, BS, and NCS, and manufacturers' bespoke colours and latest industry finishes, these include solid colour, woodgrain, metallic, sparkling metallic, anodised, zinc, and copper.

The latest development being chameleon multi-tonal colours, which can seamlessly change colour within a panel. Colourfix and Metalix are also part of the range. These decorative, chip-resistant coatings were specifically developed for increased corrosion resistance in harsh marine environments, and their UV Stable colour pigments maintain colour fastness. All colours are available in matt, satin or gloss finishes. No matter the colour or finish, Mainline Products colouring specialists can guarantee an exact finish to almost all panel colours and textures, this includes a 25-year finish warranty for peace of mind.
