XPE440

The Ultimate Performing **Epoxy Injection Mortar**

XPE440 is a pure epoxy injection mortar with approvals for anchoring and rebar connections in cracked and non-cracked concrete. Assessed for a working life of 100 years, XPE440 is ideal for heavy duty connections including with high anchorage depth.

Applications

XPE440 injection mortar can be used in conjunction with:

- Threaded rods eg. VJT Chemical Anchor Studs (zinc, HDG, A2, A4, HCR)
- VJT Internally Threaded Sockets
- Rebar designed as anchors according to EN 1992-4 or as post-installed rebars according to EN 1992-1

Key benefits

- ETA for cracked and non-cracked concrete
- ETA for post-installed rebar
- Anchors designed according to the new EN 1992-4 standard (Eurocode 2 Part 4) for maximum safety and efficiency
- · Additional provisions within ETA-20/0202 for a working life of 100 years
- Approved for seismic performance categories C1 and C2
- · Compatible with hammer or diamond drilled holes
- Suitable for dry and wet concrete including flooded holes (bonded anchors)
- · Suitable for overhead application
- Fire rating resistance ~ R120
- · NSF approval for potable water
- High chemical resistance
- Low odour
- Small allowable edge distance and anchor spacing
- Hole cleaning and installation accessories are also available
- Design check can be performed using free DesignFiX software alternatively contact technical@vjtechnology.com to model application
