

VJT CHEMICAL ANCHOR STUDS

VJTCAS v1.0 2015

Precision cut by a state of the art
Dugard 52TTS twin-spindle CNC
Lathe.

Sophisticated control system
allows for customised studs with
non—standard embedment
depths.

Automated feed system for
continuous operation with
rods up to 51mm
diameter.

Powerful 7.5kW
spindle drive gives
consistent speeds
for accurate
machining at up
to 6000rpm.
